DETAILED ACTION

DETAILED ACTION

Response to Amendment

This communication is in response to the amendment of 5/21/2008. All changes made to the Claims have been entered. Accordingly, Claims 10, 11, 12, 14, 15, and 16 are pending in the case.

Allowable Subject Matter

1. Claims 10, 11, 12, 14, 15, and 16 are allowed.

2. The following is an examiner's statement of reasons for allowance:

Claim 10, 15, and 16 are allowable over the prior art of record since the cited references taken individually or in combination fail to particularly disclose having the update information table further include a flag indicating whether or not each of the output information table is being multiplexed into the transport stream, and wherein the controlling unit further includes a deletion subunit operable to delete, from (i) the storing unit, an output information table indicated by the flag as not being multiplexed into the transport stream and (ii) the generated information list, any information corresponding to the deleted output information table. It is noted that the closest prior art, Kondo (US 6763522), hereinafter referred to as Kondo discloses the system and method for a digital electronic program guide in which the system compares presently broadcasting minor channel and PSIT information with corresponding information in memory. However the stated prior art fails to disclose or render obvious to the above underline limitations as claimed.
